

Sexually Transmitted Infections & Sexual health In the Netherlands

Berber Atsma

Public Health nurse STI & Sexual health

Overview

- Public Sexual Health in the Netherlands
- Top 5 STI's in 2015
- Some statistics
- STI risk groups
- Approach of the GGD

Public sexual health in the Netherlands

Main goal

To fight against, to control and to prevent STI in society and to promote sexual health

Policy

- Law of Public Health
- Additional Sexual Health Regulation, made by the government
 - In addition to STI care by General Practitioners (GP's)
 - Focus is to prevent the society and not only the individual
 - Focus is on groups in society with higher STI risk (Risk groups)

With help from

- Epidemiology (RIVM)
- Municipalities
- GGD's (public health services)
